

# BGE 3rd Year

**Department:** Business Education

**BGE Course:** Accounting

## Brief Description of Course

Accounting course helps candidates develop skills in communicating essential financial information to various stakeholders and organisations. It combines the practical and theoretical aspects of learning related to accounting, allowing candidates to use information and communications technology (ICT) to complete tasks.

The course comprises two areas of study:

### Financial Accounting

Candidates develop skills, knowledge and understanding to prepare, interpret and analyse financial accounting information by using the relevant accounting concepts and techniques. This information is used by stakeholders to assess their organisation's current financial position.

### Management Accounting

Candidates develop skills, knowledge and understanding of internal accounting information, and are able to prepare this using a range of basic accounting techniques. This information is used by management when making decisions about the future planning and control of their business.

## Learner Journey:

## Assessment Strategies:

For each of the above units, learners will be required to provide evidence of their knowledge and understanding and the skills they have acquired. This is done through the use of Progress Checks.

## Pupil Commitment:

Pupils are required to do written homework on a regular basis. This will help to reinforce the layouts required for the Financial element of the course.
