

BGE 3rd Year

Department: MUSIC Technology

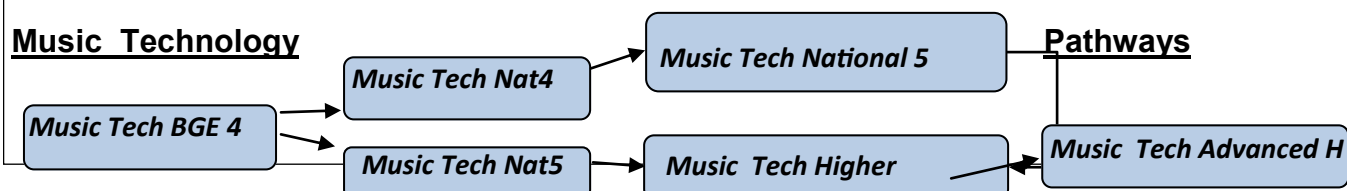

BGE Course: MUSIC Technology

Brief Description of Course:

Music Technology in S3 provides pupils with a wide variety of skills and opportunities to gain an insight into the ever growing sound technology industry.

Pupils are required to make their own sound effects, record vocals, put music to film, computer games and make their own radio broadcast to name a few. They will learn appropriate skills on software called garage band. This will equip them to move on to S4 comfortably. They will deepen their knowledge of music technology, especially concepts relevant to the 20th and 21st century.

Music Technology

Assessment Strategies:

Unit by Unit assessment using both formative and summative assessment.

Pupil Commitment:

Pupils should commit to the different practical elements of the course . As well as being assessed after all of their units they will be assessed on effort and quality of work.
