

The purpose of the Aspirational mentoring programme is to give a careers focus to the transition from S3 Broad General education to National Qualifications. So that our young people feel supported while they make their subject choices but more importantly inspired and we in-still in them the self believe that they can achieve any career goal they have in mind and we work together, school and home to make that possible. If our young people see the grown-ups they are surrounded by in their community as successful and achieving then they will want to be the same! To use the resources most effectively click the text to open the link to the different career area, watch the videos with your child and talk through the discussion points together. They will help you come to a decision about which subjects work well together for you to help you achieve your dream career. Young people can also access this information on their iPad in the aspirational mentoring team.
